# Practice workbook · Free will: Baumeister and Vohs & Schooler

How believing in free will affects on moral or socially desirable behaviour, incl. the cheating study.

7 question parts: 1 worked-example retry and 6 further practice parts.
Name: _____ Class: _____ Date: _____

Practise one question type at a time. Attempt the part inside the red boundary; the rest of the question and any figures are kept for context. Write your working in the answer space.

The first question is a retry of the website worked example, without its solution. Check your answers online with 'Check my answer', or ask your teacher for the answer booklet.

# 1. Question 20 · part whole · 9 marks

2024 JUN · Paper 02

Worked-example retry · Attempt part whole only.

***20** George's class have a mock examination in two weeks. He has done no revision for this and believes it is too late for any revision to make a difference. Instead of trying to complete some revision, George blames the teacher for not helping him enough.

Suzie has completed lots of revision, and she offers to help George so that he can pass his mock examination. George is rude to Suzie and calls her a 'teacher's pet'. He says she will only do well because she is clever, and there is no point in revision as he does not care about the mock examination anyway.

Assess how well a belief in free will (Baumeister, 2008) can explain George's behaviour.

**19** A teacher has two GCSE Psychology classes who often take the same test at different times.

A parent has told the teacher that the students in both classes often give each other the test questions so that they can cheat when they take the test.

Explain how the teacher could reduce the cheating behaviour of the students.

You should refer to a study in your answer.

## 6. Question 19 · part whole · 9 marks

2023 JUN · Paper 02

Further practice · Attempt part whole only.

***19** A teacher told his students that they were going to have a test in two weeks' time on their most recent history topic. He said that this was a good chance to demonstrate how hard they had worked.

In the next lesson, the teacher was called out of the classroom and the students at the front of the classroom saw the test questions and example answers on the teacher's desk. They took a photograph on their phones of the questions and answers and sent them to their history group chat.

Some of the students read the questions and used the answers to cheat in the test. The rest of the students deleted the chat message and did not look at the questions or answers.

Assess how well Vohs and Schooler (2008) can explain the behaviour of the students.
