Type MS · Neurons, synapses and the central nervous system

Answer 1 of 5 · Question 20 part whole · 2 marks

2024 JUN · Paper 01 · extract 1 of 2 · find part whole in this mark scheme extract

Question number	Answer	Mark
20	**One** mark for accurate understanding of the role of the central nervous system. **One** mark for exemplification of how the role of the central nervous system can be used to explain the scenario. For example: • The central nervous system helps the brain communicate with the rest of the body via the spinal cord (1). As Serinda cannot feel the pads on her legs, the messages of hot and cold from her legs must not be being successfully sent to her brain via the spinal cord, indicating her central nervous system has been damaged (1). Accept any other appropriate response.	**(2)**

Type MS · Neurons, synapses and the central nervous system

Answer 1 of 5 · Question 20 part whole · 2 marks

2024 JUN · Paper 01 · extract 2 of 2 · find part whole in this mark scheme extract

Section E
Social influence – How do others affect you?

Type MS · Neurons, synapses and the central nervous system

Answer 2 of 5 · Question 15 part whole · 2 marks

2019 JUN · Paper 01 · extract 1 of 2 · find part whole in this mark scheme extract

Question number	Answer	Mark
15	**A** The neurotransmitters will bind to the receptor like a lock and key **C** The neurotransmitters are released into the synaptic gap **The only correct answer is** A and C **B** is not correct because receptors do not bind to the synapse like a lock and key **D** is not correct because receptors are not released into the synaptic gap **E** is not correct because neurotransmitters do not always block the receptors	**(2)**

Type MS · Neurons, synapses and the central nervous system

Answer 2 of 5 · Question 15 part whole · 2 marks

2019 JUN · Paper 01 · extract 2 of 2 · find part whole in this mark scheme extract

Type MS · Neurons, synapses and the central nervous system

Answer 3 of 5 · Question 16 part whole · 2 marks

2022 JUN · Paper 01 · find part whole in this mark scheme extract

Question number	Answer	Mark
16	**One** mark for accurate statement of each process. For example: • The neurotransmitters are released into the synaptic gap (1). • The neurotransmitters will bind to the receptor like a lock and key (1). Accept any other appropriate response.	**(2)**

Type MS · Neurons, synapses and the central nervous system

Answer 4 of 5 · Question 14 part whole · 2 marks

2023 JUN · Paper 01 · find part whole in this mark scheme extract

Question number	Answer	Mark
14	**One** mark for accurate definition of each term. For example: Synapse • A synapse is a junction between neurons where messages are passed from one cell to another (1). Neurotransmitter • A neurotransmitter is a chemical messenger in the brain that helps neurons pass messages to other neurons (1). Accept any other appropriate response.	**(2)**

Type MS · Neurons, synapses and the central nervous system

Answer 5 of 5 · Question 17 part whole · 2 marks

2024 JUN · Paper 01 · extract 1 of 2 · find part whole in this mark scheme extract

Question number	Answer	Mark
17	**One** mark for accurate completion of each box. For example: • 1 – Neurotransmitter. • 2 – Receptor. Accept any other appropriate response.	**(2)**

Type MS · Neurons, synapses and the central nervous system

Answer 5 of 5 · Question 17 part whole · 2 marks
