Type MS · What shapes the self: temperament and experience

Answer 1 of 4 · Question 18 part whole · 4 marks

2025 JUN · Paper 02 · extract 1 of 2 · find part whole in this mark scheme extract

Question Number	Answer	Mark
18	**One** mark for identification of each way (maximum **two** marks). **One** mark for justification, which must be linked to the way identified (maximum **two** marks). For example: • Daniel's scores remain low due to the criticism he receives from his mathematics teacher who informs him that he does not work hard enough outside of school (1). Argyle (2008) suggests that the reaction of others is an important influence on self- esteem with criticism leading to lower self-esteem and a lack of belief in your own ability (1). • Daniel compares himself negatively to his twin sister Zoe who always gets high scores, leading to him believing he will never be good enough at mathematics (1). External influences suggest that comparing yourself to people who are better than you will lead to negative self-image and a lack of confidence to perform well in the future (1). Accept any other appropriate response.	**(4)**

Type MS · What shapes the self: temperament and experience

Answer 2 of 4 · Question 13 part whole · 1 mark

2020 NOV · Paper 02 · find part whole in this mark scheme extract

Question number	Answer	Mark
13	D – Temperament **The only correct answer is D** A is incorrect because this is not an innate trait B is incorrect because this is not an innate trait C is incorrect because this is an influence not a trait	**(1)**

Type MS · What shapes the self: temperament and experience

Answer 3 of 4 · Question 18 part whole · 2 marks

2021 NOV · Paper 02 · find part whole in this mark scheme extract

Question number	Answer	Mark
18	**One** mark for accurate understanding of temperament. **One** mark for exemplification of how temperament can be used to explain the scenario. For example: • Temperament is an innate trait that can regulate how people respond emotionally to different situations and impacts on self-esteem (1). Joe's temperament may be highly sensitive so he responded to his biology test with feelings of sadness and humiliation reinforcing the negative view of himself in biology lessons (1). Accept any other appropriate response.	**(2)**

Type MS · What shapes the self: temperament and experience

Answer 4 of 4 · Question 16 part whole · 2 marks

2023 JUN · Paper 02 · find part whole in this mark scheme extract

Question number	Answer	Mark
16	**One** mark for accurate understanding of temperament. **One** mark for exemplification of how temperament can be used to explain the scenario. For example: • Temperament can be considered a long-term predisposition that determines a person's dominant emotional behaviour (1). Natalie has a happy and cheerful temperament which helps Natalie value herself leading to a high self-esteem where she is confident and secure (1). Accept any other appropriate response.	**(2)**
