Type MS · Perceptual set: why we see what we expect

Answer 1 of 6 · Question 24 part whole · 2 marks

2025 JUN · Paper 02 · extract 1 of 2 · find part whole in this mark scheme extract

Question Number	Answer	Mark
24	**One** mark for identification of a reason. **One** mark for reasoning/justification through the use of influences on perceptual set. For example: • Students in Group 1 saw more food related items as they were more motivated to do so, as they were hungry unlike students in Group 2 who had eaten before testing (1). Allport (1955) stated that hunger is a physiological motivator which causes individuals to perceive stimuli in a particular way due to bodily needs (1). • Students in Group 1 were hungry and needed to eat meaning that the desired object of food would be more noticeable than for students in Group 2 who had eaten before testing (1). Allport (1955) stated that the way we perceive stimulus can be altered by physiological motivators such as hunger (1). Accept any other appropriate response.	**(2)**

2019 JUN · Paper 02 · extract 2 of 2 · find part whole in this mark scheme extract

Type MS · Perceptual set: why we see what we expect

Answer 3 of 6 · Question 23 part whole · 2 marks

2020 NOV · Paper 02 · find part whole in this mark scheme extract

Question number	Answer	Mark
23	**One** mark for identification of a reason **One** mark for reasoning/justification of reason identified, which must be linked to a concept. For example: • Mark has heightened fear due to feeling frightened in the dark room so he sees frightening images instead of the coat (1) because emotion affects human perception of the world leading to a perceptual set for Mark of a person being present (1). Accept any other appropriate response.	**(2)**

Type MS · Perceptual set: why we see what we expect

Answer 4 of 6 · Question 26 part whole · 2 marks

2021 NOV · Paper 02 · find part whole in this mark scheme extract

Question number	Answer	Mark
26	**One** mark for identification of how motivation affects Mylee's perception. **One** mark for reasoning/justification which must be linked to a concept. For example: • Mylee has heightened motivation as a police officer to look for actions and behaviours in people that could be criminal (1), therefore due to Mylee paying more attention to any specific visual input that is explicitly relevant to Mylee's motivation, her perception of the man is one of suspicion (1). Accept any other appropriate response.	**(2)**

Type MS · Perceptual set: why we see what we expect

Answer 5 of 6 · Question 24 part whole · 2 marks

2022 JUN · Paper 02 · find part whole in this mark scheme extract

Question number	Answer	Mark
24	**One** mark for identification of a way **One** mark for reasoning/justification through a concept For example: • Jennifer was happy from winning a prize at the competition, so she perceived the flowers more positively as bright and pretty (1). The emotion someone feels can provide a frame of reference for how they perceive sensory input, with her happier emotions leading Jennifer to perceive brighter colours (1). Accept any other appropriate response.	**(2)**

Type MS · Perceptual set: why we see what we expect

Answer 6 of 6 · Question 23 part whole · 2 marks

2024 JUN · Paper 02 · find part whole in this mark scheme extract

Question number	Answer	Mark
23	Up to **two** marks for understanding the influence of emotion on perception. For example: • Emotions can cause stimuli in the environment to be viewed subjectively by a person (1) so feeling happy can make colours of objects be perceived as more vibrant (1). Accept any other appropriate response.	**(2)**
