Type MS · Correlations and scatter diagrams

Answer 1 of 5 · Question 4 part b · 1 mark

2023 JUN · Paper 02 · extract 1 of 2 · find part b in this mark scheme extract

Question number	Answer	Mark
4(a)	**One** mark for correct knowledge of a correlation research method. • Correlational research is used to find out if there is a relationship between two co-variables (1). Accept any other appropriate response.	(1)

Question number	Answer	Mark
4(b)	**One** mark for accurate identification of the type of correlation. For example; • A negative correlation between test scores and the number of homework tasks missed (1). Accept any other appropriate response.	(1)

Question number	Answer	Mark
4(c)	**One** mark for accurate identification of the number who scored more than 70. • 7 (1).	(1)

Answer 1 of 5 · Question 4 part b · 1 mark

2023 JUN · Paper 02 · extract 2 of 2 · find part b in this mark scheme extract

Type MS · Correlations and scatter diagrams

Answer 2 of 5 · Question 3 part e · 1 mark

2022 JUN · Paper 02 · extract 1 of 3 · find part e in this mark scheme extract

Question number	Answer	Mark
3(a)	**One** mark for correct knowledge of a structured interview. • A structured interview is when a researcher has predetermined questions that they ask interviewees (1). Accept any other appropriate response.	(1)

Type MS · Correlations and scatter diagrams

Answer 2 of 5 · Question 3 part e · 1 mark

2022 JUN · Paper 02 · extract 2 of 3 · find part e in this mark scheme extract

Question number	Answer	Mark
3(b)	**One** mark for understanding of sampling method. **One** mark for application to the scenario. For example: • A random sample is when the participants in a target group all have an equal chance of selection (1), so Juliet could put the names of the available 17-year-old students into a hat and pick out her participant sample (1). Accept any other appropriate response.	(2)

Question number	Answer	Mark
3(c)	**One** mark for accurate identification of the type of data. For example: • Juliet gathered primary data directly from the 17-year old students (1). Accept any other appropriate response.	(1)

Question number	Answer	Mark
3(d)	**One** mark for correct calculation of the mode for body image scores. • 7 (1). Accept any other appropriate response.	(1)

Question number	Answer	Mark
3(e)	**One** mark for giving one way the findings support the conclusion. For example: • As the number of hours spent on social media increased the scores for body image decreased (1). Accept any other appropriate response.	(1)

2023 JUN · Paper 02 · extract 2 of 2 · find part a in this mark scheme extract

Type MS · Correlations and scatter diagrams

Answer 4 of 5 · Question 4 part c · 1 mark

2023 JUN · Paper 02 · extract 1 of 2 · find part c in this mark scheme extract

Question number	Answer	Mark
4(a)	**One** mark for correct knowledge of a correlation research method. • Correlational research is used to find out if there is a relationship between two co-variables (1). Accept any other appropriate response.	(1)

Question number	Answer	Mark
4(b)	**One** mark for accurate identification of the type of correlation. For example; • A negative correlation between test scores and the number of homework tasks missed (1). Accept any other appropriate response.	(1)

Question number	Answer	Mark
4(c)	**One** mark for accurate identification of the number who scored more than 70. • 7 (1).	(1)

Type MS · Correlations and scatter diagrams

Answer 4 of 5 · Question 4 part c · 1 mark

2023 JUN · Paper 02 · extract 2 of 2 · find part c in this mark scheme extract

Type MS · Correlations and scatter diagrams

Answer 5 of 5 · Question 3 part c · 2 marks

2024 JUN · Paper 02 · extract 1 of 2 · find part c in this mark scheme extract

Question number	Answer	Mark
3(a)	**One** mark for correct calculation. Calculation: 65 - 18 • 47 Accept any other appropriate response.	(1)

Question number	Answer	Mark
3(b)	**One** mark for correct calculation of remaining participants. **One** mark for correct answer. Calculation: (180/3)*2= • 120 participants Calculation: 60:120 simplified using a common factor • 1:2 Accept any other appropriate response.	(2)

Question number	Answer	Mark
3(c)	**One** mark for conclusion made. **One** mark for justification of conclusion through analysis of data. • The more hours of music a person listens to then the more likely they are to feel happy (1) as there is a positive correlation between hours listening to music and self-rated happiness scores out of 10 (1). Accept any other appropriate response.	(2)
