Type MS · The Stanford prison study (Haney, Banks and Zimbardo)

Answer 1 of 10 · Question 26 part whole · 2 marks

2022 JUN · Paper 01 · extract 1 of 2 · find part whole in this mark scheme extract

Question number	Answer	Mark
26	**One** mark for accurate understanding of Haney et al. (1973). **One** mark for exemplification of how Haney et al. (1973) can be used to explain the scenario. For example: • Haney et al. (1973) found that prisoners acted submissively and guards aggressively when in a simulated prison despite being similar at the beginning showing they had become deindividuated due to their role assignment (1). Casey is therefore likely to find that in the staff are more likely to speak more professionally and use more business jargon when wearing smart suits so will act more like their expected role compared to when in their casual clothes (1). Accept any other appropriate response.	**(2)**

Type MS · The Stanford prison study (Haney, Banks and Zimbardo)

Answer 1 of 10 · Question 26 part whole · 2 marks

2022 JUN · Paper 01 · extract 2 of 2 · find part whole in this mark scheme extract

Section F

Type MS · The Stanford prison study (Haney, Banks and Zimbardo)

Answer 2 of 10 · Question 19 part a · 1 mark

2019 JUN · Paper 01 · find part a in this mark scheme extract

Question number	Answer	Mark
19(a)	**B** 6 **The only correct answer is** B **A** is not correct because it was not 5 days **C** is not correct because it was not 7 days **D** is not correct because it was not 8 days	**(1)**

Question number	Answer	Mark
19(b)	**One** mark for accurate statement. For example: • 75 (1). Reject other answers.	**(1)**

Type MS · The Stanford prison study (Haney, Banks and Zimbardo)

Answer 3 of 10 · Question 19 part b · 1 mark

2019 JUN · Paper 01 · find part b in this mark scheme extract

Question number	Answer	Mark
19(a)	**B** 6 **The only correct answer is** B **A** is not correct because it was not 5 days **C** is not correct because it was not 7 days **D** is not correct because it was not 8 days	**(1)**

Question number	Answer	Mark
19(b)	**One** mark for accurate statement. For example: • 75 (1). Reject other answers.	**(1)**

Type MS · The Stanford prison study (Haney, Banks and Zimbardo)

Answer 4 of 10 · Question 18 part a · 1 mark

2020 NOV · Paper 01 · extract 1 of 2 · find part a in this mark scheme extract

Question number	Answer	Mark
18(a)	**D** – three meals per day The only correct answer is D. A is incorrect because there were not two supervised toilet visits per day. B is incorrect because there were not three visits per day. C is incorrect because they were not lined up to be counted four times per day.	(1)

Question number	Answer	Mark
18(b)	**One** mark for demonstrating accurate understanding of Haney, Banks, and Zimbardo (1973) **One** mark for exemplification of how Haney, Banks, and Zimbardo (1973) can be used to explain the scenario. For example: Haney, Banks, and Zimbardo (1973) found that people given military style guard uniforms changed their behaviour to act with more power and control than without the uniforms through deindividuation (1). Junbin and his friends have face masks and hoods to hide their identity at the park but are more identifiable at the shopping centre so are less likely to act aggressively as they are more accountable for their actions (1). Accept any other appropriate response.	(2)

Type MS · The Stanford prison study (Haney, Banks and Zimbardo)

Answer 4 of 10 · Question 18 part a · 1 mark

2020 NOV · Paper 01 · extract 2 of 2 · find part a in this mark scheme extract

Question number	Answer	Mark
18(c)	**One** mark for identification of each weakness (maximum **two** marks). **One** mark for justification, which must be linked to each weakness identified (maximum **two** marks). For example: • Haney et al. (1973) took place in a Stanford University basement and in a prison setting so is different from a park and shopping centre so lacks validity (1) which means that what happened in the study may be different to what happens in more natural, real life settings such as the park and shopping centre (1). • In Haney et al. (1973) there was a group of prisoners dressed in uniforms too, to diminish their status compared to the guards so lacks validity as this was not the case for Junbin and his friends (1) because passers-by in the park or at the shopping centre would not be dressed in uniforms / prisoner outfits to reduce their power and identity so the study cannot comparably explain what would happen with Junbin and his friends (1). Accept any other appropriate response.	**(4)**

Type MS · The Stanford prison study (Haney, Banks and Zimbardo)

Answer 5 of 10 · Question 18 part b · 2 marks

2020 NOV · Paper 01 · extract 1 of 2 · find part b in this mark scheme extract

Question number	Answer	Mark
18(a)	**D** – three meals per day The only correct answer is D. A is incorrect because there were not two supervised toilet visits per day. B is incorrect because there were not three visits per day. C is incorrect because they were not lined up to be counted four times per day.	(1)

Question number	Answer	Mark
18(b)	**One** mark for demonstrating accurate understanding of Haney, Banks, and Zimbardo (1973) **One** mark for exemplification of how Haney, Banks, and Zimbardo (1973) can be used to explain the scenario.
