Block practice · Perception (optional)

Work through each question type in order. Each section has a worked-example retry and all further practice. Attempt only the part outlined in red.

Stereopsis: seeing depth with two eyes

OLevels.com SCHOOL

Practice workbook · Stereopsis: seeing depth with two eyes

Depth perception from the two eyes' overlapping views combined into one 3D image.

4 question parts: 1 worked-example retry and 3 further practice parts.
Name: _____ Class: _____ Date: _____

Practise one question type at a time. Attempt the part inside the red boundary; the rest of the question and any figures are kept for context. Write your working in the answer space.

The first question is a retry of the website worked example, without its solution. Check your answers online with 'Check my answer', or ask your teacher for the answer booklet.

1. Question 24 · part whole · 2 marks

2020 NOV · Paper 02

Worked-example retry · Attempt part whole only.

24 Katie has a visual impairment. She has nerve damage that limits the movement of one eye. Katie struggles to perceive depth in the images she sees.

Explain why Katie may struggle to perceive depth because of her visual impairment.

You should refer to a visual cue in your answer.

(Total for Question 24 = 2 marks)
