Practice workbook · Cognitive explanation of depression

Cognitive (e.g. Beck) explanations of depression and their strengths and weaknesses.

2 question parts: 1 worked-example retry and 1 further practice parts.
Name: _____ Class: _____ Date: _____

Practise one question type at a time. Attempt the part inside the red boundary; the rest of the question and any figures are kept for context. Write your working in the answer space.

The first question is a retry of the website worked example, without its solution. Check your answers online with 'Check my answer', or ask your teacher for the answer booklet.

1. Question 12 · part b · 4 marks

2023 JUN · Paper 01

Worked-example retry · Attempt part b only.

12 Maddie has been diagnosed with depression.

She has stopped going to work as she constantly feels intense sadness and cannot find the motivation to speak to anyone.

Her mum tries to encourage and reassure her, but Maddie says there is no point as she will always be a failure. Maddie says work is pointless as she claims her recent performance review was worse than she expected. She also thinks she will never get a promotion or a partner.

(a) Explain how cognitive theory could account for Maddie's depression.

(2)

(b) Explain **one** strength and **one** weakness of using cognitive theory to account for Maddie's depression.

(4)

Strength

Weakness

1. Question 12 · part b · 4 marks

2023 JUN · Paper 01

Worked-example retry · Attempt part b only.

(c) Maddie's psychiatrist is considering whether to use drugs as a treatment for her depression. She is interested to see how a new antidepressant drug called 'H3-a' compares to a standard antidepressant.

Maddie's psychiatrist looks at clinical trial data for the new drug and compares it to the standard antidepressant in terms of relapse in symptoms and the possibility of Maddie experiencing side effects after taking the drug.

The data she is considering is shown in **Table 1**.

	New antidepressant 'H3-a'	Standard antidepressant
Average percentage (%) of patients reporting relapse in symptoms after 1 year	22	35
Average percentage (%) of patients reporting severe side effects	25	15

Table 1

Explain **one** conclusion that Maddie's psychiatrist could make regarding the new antidepressant drug 'H3-a' compared to the standard antidepressant using **Table 1**.
