Practice workbook · CBT as a treatment for depression and addiction

Cognitive behavioural therapy for depression and addiction, how it is used and how well it works.

4 question parts: 1 worked-example retry and 3 further practice parts.
Name: _____ Class: _____ Date: _____

Practise one question type at a time. Attempt the part inside the red boundary; the rest of the question and any figures are kept for context. Write your working in the answer space.

The first question is a retry of the website worked example, without its solution. Check your answers online with 'Check my answer', or ask your teacher for the answer booklet.

12 Jeremie used to watch his father on online auction sites. Jeremie was interested in the bidding and how much pleasure 'winning' an item gave his father.

Jeremie joined the online auction sites when he became old enough to buy the items himself. He has been buying hundreds of items from the auctions and has recently been diagnosed with an internet addiction to online auction sites.

(a) Explain how **one** symptom of addiction will affect Jeremie.

2. Question 10 · part a · 2 marks

2020 NOV · Paper 01

Further practice · Attempt part a only.

10 Kesia began going to the local shopping centre after work each day and bought new clothes each time. She then found herself thinking about buying clothes and shopping all the time at work, until she found it difficult to focus on anything else.

Kesia has now bought so many clothes that she does not experience much pleasure anymore when buying them. She has got into a huge amount of debt to the extent that she cannot afford to pay her rent anymore.

(a) Explain **one** way that cognitive behavioural therapy (CBT) could be used to help Kesia's addiction.

(2)

(b) Explain **one** weakness of using cognitive behavioural therapy (CBT) for Kesia's addiction.

(2)

(Total for Question 10 = 4 marks)

2023 JUN · Paper 01

Further practice · Attempt part d only.

12 Maddie has been diagnosed with depression.

She has stopped going to work as she constantly feels intense sadness and cannot find the motivation to speak to anyone.

Her mum tries to encourage and reassure her, but Maddie says there is no point as she will always be a failure. Maddie says work is pointless as she claims her recent performance review was worse than she expected. She also thinks she will never get a promotion or a partner.

(a) Explain how cognitive theory could account for Maddie's depression.

(2)

(b) Explain **one** strength and **one** weakness of using cognitive theory to account for Maddie's depression.

(c) Maddie's psychiatrist is considering whether to use drugs as a treatment for her depression. She is interested to see how a new antidepressant drug called 'H3-a' compares to a standard antidepressant.

Maddie's psychiatrist looks at clinical trial data for the new drug and compares it to the standard antidepressant in terms of relapse in symptoms and the possibility of Maddie experiencing side effects after taking the drug.

The data she is considering is shown in **Table 1**.

	New antidepressant 'H3-a'	Standard antidepressant
Average percentage (%) of patients reporting relapse in symptoms after 1 year	22	35
Average percentage (%) of patients reporting severe side effects	25	15

Table 1

OLevels.COM SCHOOL

Explain **one** conclusion that Maddie's psychiatrist could make regarding the new antidepressant drug 'H3-a' compared to the standard antidepressant using **Table 1**.
