11. Question 41 · part whole · 9 marks

2024 JUN · Paper 02

Further practice · Attempt part whole only.

***41** Moki has decided to learn English as his second language. He started online lessons with an English tutor. Moki is struggling with his learning because there are big differences between his native language and the English language.

Moki is currently learning words for rain, such as heavy, light, shower and downpour. He can say the words but does not understand why there are so many words for rain when his language only has one word.

The tutor shows Moki video clips and pictures of different types of rain alongside each word, and he is beginning to understand the differences between these types of rain.

Assess how well linguistic determinism can explain Moki's difficulty learning a second language.
