Type MS · Mindsets and praise (Dweck; Gunderson et al., 2013)

Answer 1 of 11 · Question 2 part whole · 2 marks

2023 JUN · Paper 01 · find part whole in this mark scheme extract

Question number	Answer	Mark
2	**One** mark for demonstrating accurate understanding of a growth mindset. **One** mark for exemplification of how growth mindset can be used to explain the scenario. For example: • To develop a growth mindset a child should be praised for their effort and not for their ability (1), so Martha could praise Emily's effort during the maths puzzle by saying 'I like how hard you're trying' to encourage Emily to persevere and develop a growth mindset (1). Accept any other appropriate response.	**(2)**

Type MS · Mindsets and praise (Dweck; Gunderson et al., 2013)

Answer 2 of 11 · Question 2 part a · 1 mark

2019 JUN · Paper 01 · extract 1 of 2 · find part a in this mark scheme extract

Question number	Answer	Mark
2 (a)	**One** mark for stating the type of mindset. For example: • Fixed mindset (1). Accept any other appropriate response.	**(1)**

Question number	Answer	Mark
2 (b)	**One** mark for stating the type of mindset. For example: • Growth mindset (1). Accept any other appropriate response.	**(1)**

Type MS · Mindsets and praise (Dweck; Gunderson et al., 2013)

Answer 4 of 11 · Question 1 part a · 1 mark

2020 NOV · Paper 01 · find part a in this mark scheme extract

Question number	Answer	Mark
1(a)	**One** mark for stating what is meant by a 'fixed mindset'. For example: • When someone thinks their ability is always the same regardless of effort and practice. Accept any other appropriate response.	(1)

Question number	Answer	Mark
1(b)	**One** mark for stating what is meant by a 'growth mindset'. For example: • When someone thinks that effort and practice can improve their ability. Accept any other appropriate response.	(1)

Type MS · Mindsets and praise (Dweck; Gunderson et al., 2013)

Answer 5 of 11 · Question 1 part b · 1 mark

2020 NOV · Paper 01 · find part b in this mark scheme extract

Question number	Answer	Mark
1(a)	**One** mark for stating what is meant by a 'fixed mindset'. For example: • When someone thinks their ability is always the same regardless of effort and practice. Accept any other appropriate response.	(1)

Question number	Answer	Mark
1(b)	**One** mark for stating what is meant by a 'growth mindset'. For example: • When someone thinks that effort and practice can improve their ability. Accept any other appropriate response.	(1)

Type MS · Mindsets and praise (Dweck; Gunderson et al., 2013)

Answer 6 of 11 · Question 4 part a · 2 marks

2021 NOV · Paper 01 · extract 1 of 2 · find part a in this mark scheme extract

Question number	Answer	Mark
4(a)	**One** mark for appropriate conclusion. **One** mark for justification of the conclusion through analysis/interpretation. For example: • When pupils were praised for effort they made more attempts to break running records than those given praise for ability (1) which is shown by an average 6 attempts for the 100m when praised for effort compared to just 1 attempt for the 1500m when praised for ability (1). Accept any other appropriate response.	(2)

Question number	Answer	Mark
4(b)	**One** mark for identification of a relevant improvement. **One** mark for justification, which must be linked to the improvement identified. For example: • The pupils in each class could have been given the same distance to run such as both running the 100m (1) so that there is a comparable distance to run and the impact of praise on attempts will not be influenced by the distance to run, increasing validity of her investigation (1). Accept any other appropriate response.	(2)

Type MS · Mindsets and praise (Dweck; Gunderson et al., 2013)

Answer 9 of 11 · Question 4 part a · 2 marks

2024 JUN · Paper 01 · extract 1 of 2 · find part a in this mark scheme extract

Question number	Answer	Mark
4(a)	**One** mark for demonstrating accurate understanding of Carol Dweck's mindset theory. **One** mark for exemplification of how the theory can be used to explain the scenario. For example: • A fixed mindset is when someone thinks their ability is always the same regardless of effort and practice (1). Sara appears to have developed a fixed mindset because she stopped reading when she felt it was difficult as she did not think she would improve (1). Accept any other appropriate response.	**(2)**

Question number	Answer	Mark
4(b)	**One** mark for identification of each strength or weakness (maximum **two** marks). **One** mark for justification which must be linked to the strength or weakness identified (maximum **two** marks). For example: Strength • There is experimental evidence to support the influence of praise on ability and effort, such as Mueller and Dweck (1998), which showed person praise led to fixed mindsets so could support Sara having developed a fixed mindset by stopping digging (1) as they found praising performance led to children decreasing performance and effort, so could account for Sara giving up digging as her father had previously praised her for this (1). Weakness • Evidence to support Dweck's theory have been based in artificial settings, such as Mueller and Dweck (1998), so may not account for Sara's behaviour as she is at home with her father (1), so any evidence from laboratory research into mindsets may only lead to artificial behaviour and not be able to fully explain Sara's reading or digging at home as this is in an everyday, normal setting for Sara (1). Accept any other appropriate response.	**(4)**

Answer 11 of 11 · Question 1 part whole · 2 marks

2025 JUN · Paper 01 · find part whole in this mark scheme extract

Question number	Answer	Mark
1	**A** – Boys received more process praise than girls. **E** – Process praise at 14-38 months was significantly correlated to incremental (malleable) motivational framework at 7-8 years old. The only correct answers are A and E. B is incorrect praise of any type was on average 3% of all utterances by parents. C is incorrect because person praise at 14-38 months was not significantly correlated to children's entity (fixed) motivational framework at 7-8 years old. D is incorrect because girls received more person and other praise than boys.	**(2)**
