Type MS · Sleep disorders: insomnia and narcolepsy

Answer 1 of 10 · Question 30 part whole · 2 marks

2025 JUN · Paper 02 · find part whole in this mark scheme extract

Question Number	Answer	Mark
30	**One** mark for accurate understanding of one sleep disorder. **One** mark for exemplification of how the identified sleep disorder can be used to explain the scenario. For example: • Insomnia is a sleep disorder which is characterized by lying awake for long periods at night and not feeling refreshed or alert during the day (1), which is shown by Dennis as he lies awake after only sleeping for an hour suggesting he is suffering from insomnia leading to him constantly feeling tired and making errors at work (1). • Insomnia is a sleep disorder where individuals wake up during the night and then struggle to get back to sleep again leading to tiredness and irritability during the day (1), which is shown by Dennis as he wakes up after an hour's sleep and then lies awake, meaning he is unable to concentrate at work leading to errors (1). Accept any other appropriate response.	**(2)**

Answer 2 of 10 · Question 29 part whole · 1 mark

2019 JUN · Paper 02 · find part whole in this mark scheme extract

Question number	Answer	Mark
29	A – falling asleep suddenly **The only correct answer is A** B is incorrect as this is not a symptom of narcolepsy C is incorrect as this is a symptom of insomnia D is incorrect as this is not a symptom of narcolepsy	**(1)**

Type MS · Sleep disorders: insomnia and narcolepsy

Answer 3 of 10 · Question 32 part whole · 2 marks

2019 JUN · Paper 02 · extract 1 of 2 · find part whole in this mark scheme extract

Question number	Answer	Mark
32	**One** mark for identification of a strength. **One** mark for justification, which must be linked to the strength identified. For example: • Simon has used open questions as well as closed questions in his study so he will have qualitative data about the effect of insomnia on someone's daily life (1) which means he will achieve more valid findings as participants can explain their experience of insomnia in more detail than in closed questions (1). Accept any other appropriate response.	**(2)**

Answer 3 of 10 · Question 32 part whole · 2 marks

2019 JUN · Paper 02 · extract 2 of 2 · find part whole in this mark scheme extract

Type MS · Sleep disorders: insomnia and narcolepsy

Answer 4 of 10 · Question 33 part whole · 2 marks

2019 JUN · Paper 02 · find part whole in this mark scheme extract

Question number	Answer	Mark
33	**One** mark for demonstrating accurate understanding of insomnia. **One** mark for exemplification of how insomnia can be used to explain the scenario. For example: • Insomnia is a sleep disorder that can result in people not being able to get to sleep at night and waking from sleep frequently (1) which would explain why Karl feels tired during the day as he is not getting the full amount of sleep he would need to be completely rested for the day (1). Accept any other appropriate response.	**(2)**

Type MS · Sleep disorders: insomnia and narcolepsy

Answer 5 of 10 · Question 28 part whole · 1 mark

2020 NOV · Paper 02 · find part whole in this mark scheme extract

Question number	Answer	Mark
28	**One** mark for accurate knowledge of a symptom of narcolepsy. • A person will fall asleep unexpectedly without warning (1). Accept any other appropriate response.	**(1)**

Type MS · Sleep disorders: insomnia and narcolepsy

Answer 6 of 10 · Question 30 part whole · 2 marks

2020 NOV · Paper 02 · extract 1 of 2 · find part whole in this mark scheme extract

Question number	Answer	Mark
30	**One** mark for identification of a reason. **One** mark for justification, which must be linked to the reason identified. For example: • Marcus is argumentative with friends as he would be feeling tired and irritable due to not having enough sleep to be properly rested (1) because insomnia is characterised by being unable to get to sleep and having a lack of sleep which can result in the symptom of mood changes (1). Accept any other appropriate response.	**(2)**

Type MS · Sleep disorders: insomnia and narcolepsy
